

Commercial Proposal

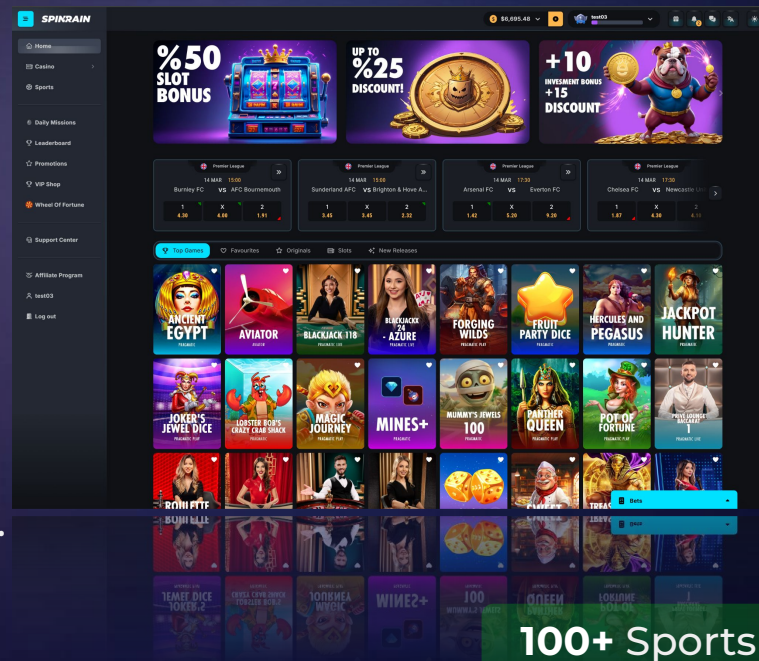

“New Project”

Overview

We deliver a highly customizable, agile full-platform solution for sports, esports, and casino. Our platform integrates seamlessly with **top feed providers** for sports data.

Our Casino Suit includes **more than 10.000** games with direct integrations and aggregators.

Our modular, scalable design ensures operators can tailor the platform to their exact needs, staying competitive in the fast-paced iGaming market.

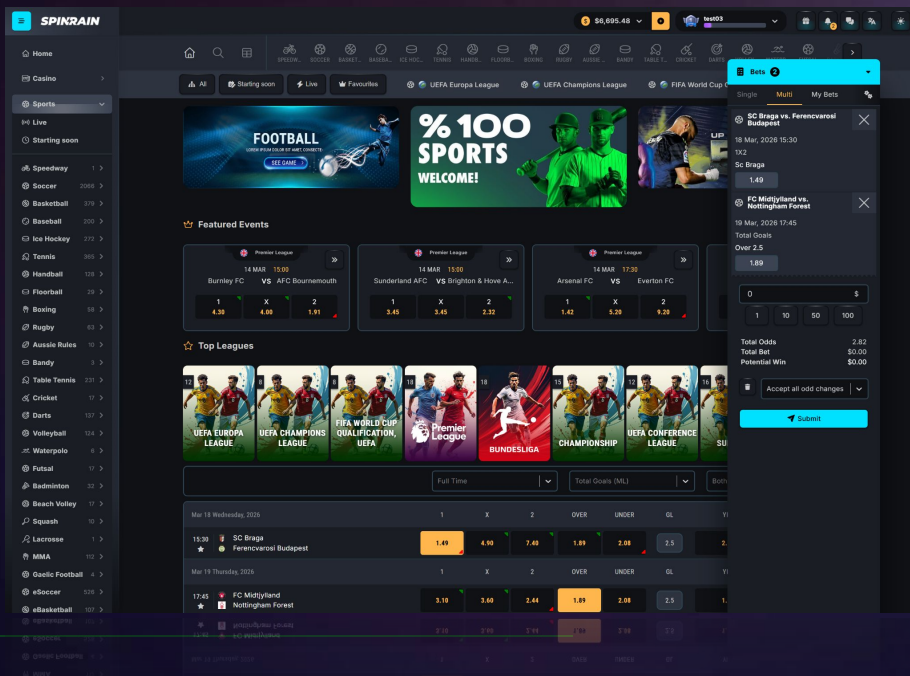

100+ Sports

175K+ Pre Events

100K+ Live Events

Sportsbook

Our Sportsbook offers unbeatable coverage of the world's top sports, delivering thousands of live and pre-match events every month.

- + Bet Types: **Single, Multiple, System Bets**
- + Advanced Options: **Automatic Bonus Calculation, Cashout,**
- + Bet Builder: **Single Game Parlay, Prematch and Live.**
- + Customizable Sports CMS: **Manage sports, markets, and odds in real time**
- + Marketing Tools: **Banners, Highlighted Top Leagues & Events.**
- + Engagement Tools: **Live & Pre-match Match Trackers, Rich Statistics, Instant Odds Updates**

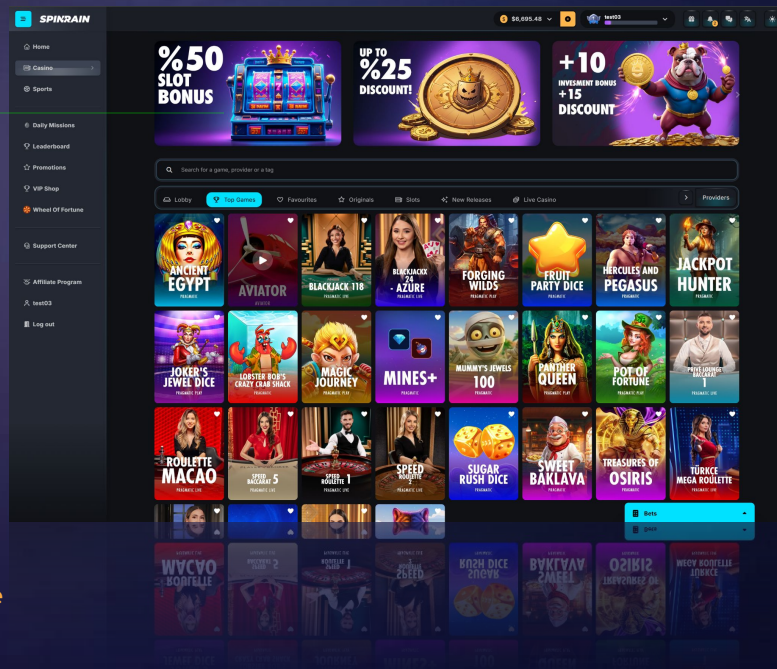

Designed for performance, customization, and player engagement, the BetArts Sportsbook gives operators the power to deliver a world-class betting experience.

Casino

Our Casino delivers a premium, fully-integrated gaming experience with a vast library of top titles from industry leaders. Featuring direct integrations with top providers and an aggregated solution for rapid launch, operators can offer players thousands of games across slots, live casino, table games, and more.

- + Wallet management: **Separate Bonus & Cash Wallets** with seamless switching
- + Automatic Rollover Calculations: **Streamlined bonus compliance tracking**
- + Gamification Tools: **Achievements, Triggers, Free Spins** and more.
- + VIP & Loyalty Programs: **Tiered rewards** to increase retention and lifetime value
- + Automatic Rollover Calculations: **Transparent, automated tracking of wagering requirements.**
- + Promotional Flexibility: **Personalized offers, targeted campaigns, and real-time rewards**

With powerful engagement and retention mechanics, BetArts Casino turns gameplay into a rewarding journey that keeps players coming back.

Gamification

We go beyond traditional gaming by embedding engagement mechanics that transform gameplay into an interactive, rewarding journey.

Our gamification layer is fully integrated into the platform, designed to boost retention, loyalty, and player lifetime value.

- + Missions & Achievements: **Players complete challenges for rewards, driving consistent activity.**
- + VIP & Loyalty Tiers: **Structured progression with exclusive benefits and real-life perks.**
- + Free Spins & Bonus Rewards: **Flexible tools to incentivize deposits, gameplay, and retention.**
- + Tournaments & Leaderboards: **Real-time competition across slots, tables, and sportsbook events.**
- + Automatic Rollover Calculations: **Transparent, automated tracking of wagering requirements.**
- + Dynamic Wallets: **Bonus & Cash wallets for seamless promotional play.**

Gamification in BetArts is not an add-on! it's built into the core. This means operators can launch personalized campaigns, seasonal events, and tailored retention strategies with just a few clicks, giving them the edge in player engagement and brand loyalty.

Crypto Support

Our platform is built for a global player base, supporting both traditional fiat currencies and leading cryptocurrencies out of the box. Operators can confidently run multi-market operations while giving players the freedom to choose their preferred payment method.

- + Multi-Currency Support: Seamless handling of deposits, withdrawals, and balances across all major fiat (USD, EUR, GBP, BRL, TRY, NGN, and more).
- + Crypto-Ready Infrastructure: Support for BTC, ETH, USDT, and other popular coins.
- + Custody Wallets: Secure, segregated wallets for both players and operators.
- + Flexible Settlements: Real-time or scheduled settlements in fiat and crypto.
- + Automatic Conversions: Built-in FX and crypto conversion flows with transparent rates.
- + Compliance & Security: KYC/AML monitoring, blockchain transaction tracking, and audit logs.

With crypto-friendly payments and multi-currency flexibility, BetArts allows operators to expand their reach, optimize operations in different geographies, and deliver a borderless, seamless player experience.

What makes us different?

We are not just another iGaming platform — we are a technology-first, fully in-house built solution with zero third-party dependencies. Every component, from our real-time socket engine to our back office and integration frameworks, is developed and optimized internally for maximum speed, stability, and scalability.

- + True Modularity: **Deploy as full turnkey, iFrame, or API-only.**
- + Unmatched Integration Speed: **Sports feeds, casino providers, and PSPs live in hours, not weeks.**
- + Low-Latency Technology: **Proprietary socket system delivers instant updates with zero lag.**
- + Feed & Provider Agnostic: **Total freedom to choose and switch data or game sources.**
- + Crypto-Ready Infrastructure: **Secure custody wallets and multi-currency support.**
- + Custom Branding at Scale: **Our Flux Design System enables unique skins and layouts effortlessly.**

We empower operators with full control, rapid go-live, and technology that adapts as fast as the market changes.
